Service

Individualized remote coaching service to improve the level of golf of a given player. This service is 100% digital and relies on the Hello Birdie app to record golf performances from any course in the world. The follow-up is 100% real and carried out remotely by our coach in person. This allows him to identify the strengths and weaknesses of each golfer in order to concentrate efforts on the aspects that will effectively reduce the score.

A "Money-back" guarantee mechanism is also offered for annual registrations. See conditions below.
